

## Changing The Filter On your Comfee Cooler With the C2000 Filter

Please visit [bottleLess.com/setup](http://bottleLess.com/setup)  
For SET-UP, OPERATION & TROUBLESHOOTING VIDEOS -  
As well as updated installation manuals

### 1. TURN OFF WATER

Please find the shut off valve that looks like this photo. It may be under a sink or behind the cooler. Rotate to this position (perpendicular to the waterway).

### 2. ROTATE COMFEE COOLER TO THE BACK

Please rotate the cooler to the back so you can see the access door

### 3. REMOVE ACCESS DOOR

Push down on the clip at the top of the access door and remove door completely.

### 4. PULL DOWN ON FILTER HOUSING

It will rotate towards you

### 5. ROTATE USED FILTER COUNTER CLOCK-WISE

Remove the used filter from cooler.

### 6. WRITE DATE ON YOUR NEW C2000

Write today's date on filter so you know when you changed it.

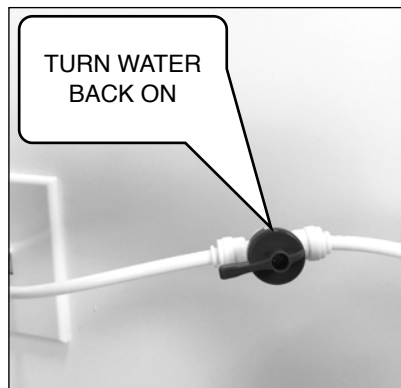

### 7. REPLACE FILTER & ROTATE INTO PLACE

Turn clock-wise until it stops.

### 8. CLOSE DOOR

Close the door until you hear it click into place

### 9. TURN WATER BACK ON. THEN, FLUSH 1 GAL

Flush 1 gallon of water through the cooler to remove any carbon fines that may have come loose.
